Introduction

Introducing the Ice-Cream Website, a visionary project led by Mr. "A," the owner of a celebrated ice-cream parlor. With a dynamic website at its core, the objective is to not only showcase the delectable range of ice creams but also create an interactive platform for enthusiasts to explore the art of dessert creation. Boasting features for both registered and unregistered users, the portal aims to enhance the shop's online presence, facilitate recipe distribution, sell exclusive books, and foster customer engagement through feedback. Key elements include a user-friendly home page, secure registration with subscription options, online ordering of recipe books, an engaging "About Us" section, and an admin dashboard for seamless management. Developed using ASP.NET MVC, Ice-Cream Paradise strives to unite dessert lovers and elevate the joy of ice cream through a captivating online experience.

Technologies Used

This is a full-stack project involving both front-end and back-end technologies.

Why we used ASP .NET MVC?

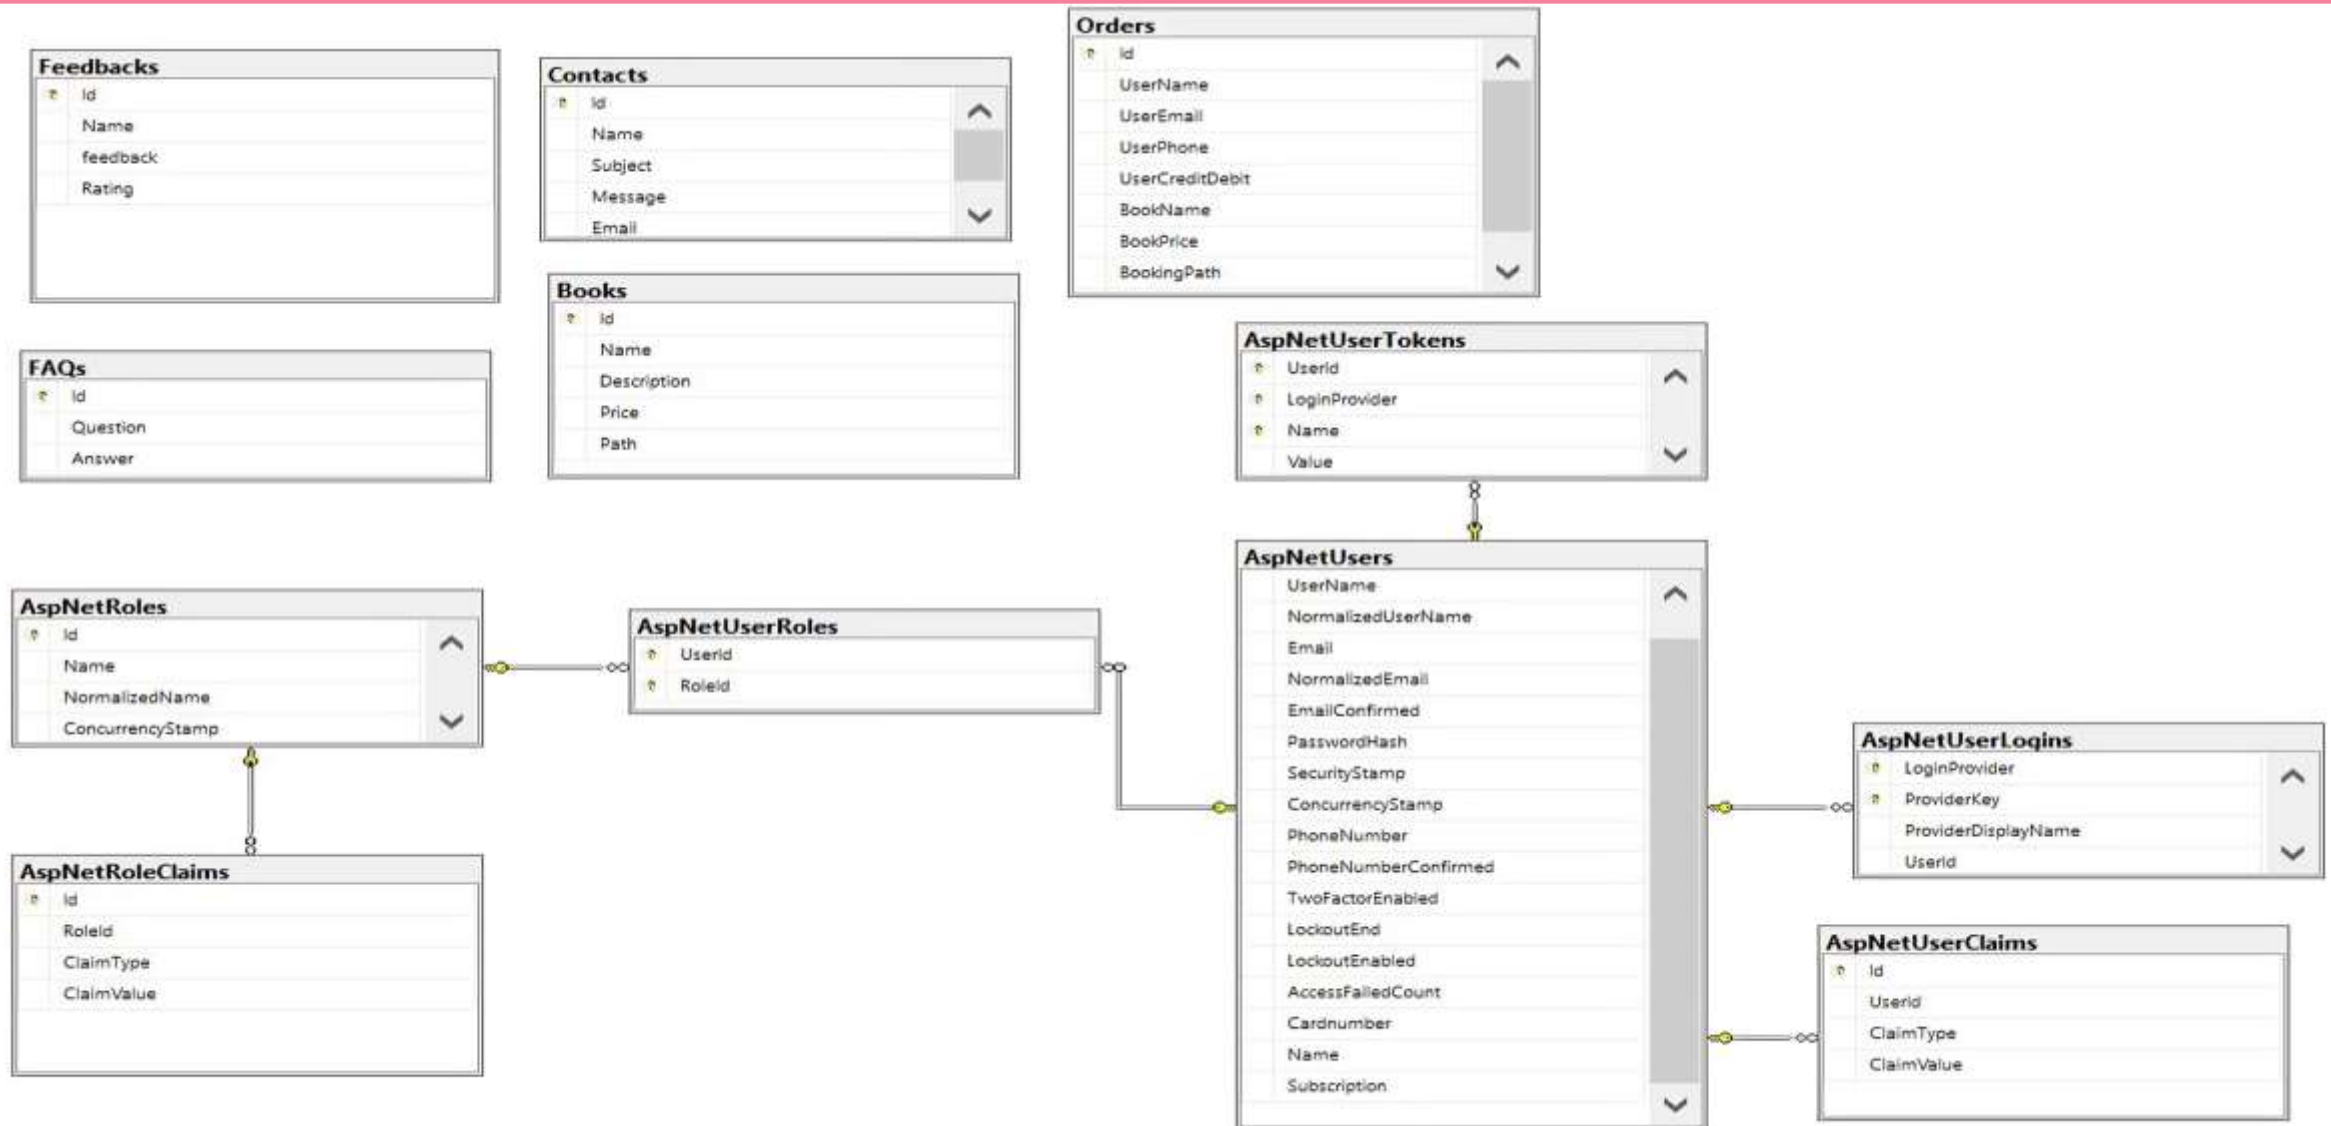

So Why we only used ASP .NET MVC when we had many alternative frameworks?

Benefits of ASP.NET MVC over other alternatives

- ✓ MVC Architecture
- ✓ Optimized for making large and heavy projects/programs
- ✓ Easier Debugging Capabilities
- ✓ Scaffolding Feature allows ready made basic Crud
- ✓ Integrated Security Features
- ✓ Extensive Community and Documentation
- ✓ Flexible Routing System
- ✓ IDE Integration with Visual Studio
- ✓ Built-in Support for Dependency Injection
- ✓ Automatic State Management with TempData

Problems/Requirements

- 1) Website Structure and Navigation: **1**
- 2) User Registration and Login: **2**
- 3) Book Ordering System: **3**
- 4) Feedback Form: **3**
- 5) About Us: **1**
- 6) Contact Us: **1**
- 7) Registered User Features: **2**
- 8) Flavor Details for Registered Users: **2**
- 9) Admin Panel: **6**
- 10) General Requirements: **3**

Total: 24.

1) Website Structure and Navigation:

1.1 Create a home page with menus for home, login, free recipes, contact us, feedback, adding recipe, FAQs, and ordering recipe books.

A feedback form titled "Feedback Form" with a "Name" field, a "Feedback" text area, a 5-star rating system, and a "Send Feedback" button.

Feedback

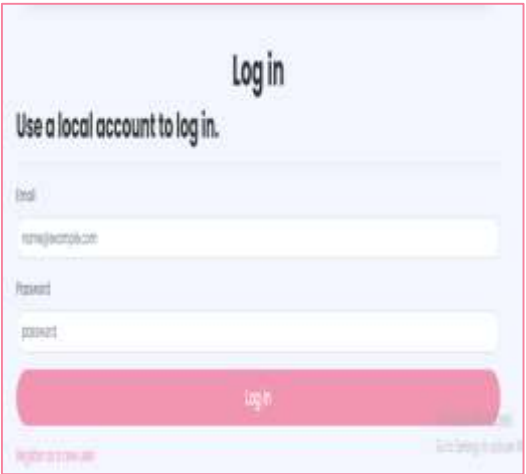

A section titled "Our Delicious Recipes" featuring four recipe cards: Strawberry Icecream, Chocolate Icecream, Mango Icecream, and Vanilla Icecream. Each card has an "Add to Cart" button.

Recipes

The main home page for "iCREAM". It features a navigation bar with links: Home, About, Recipes, Books, Service, Gallery, and Contact. The main content area has a large banner with the text "TRADITIONAL & DELICIOUS Made From Our Own Organic Milk" and images of various ice cream cones.

Home Page

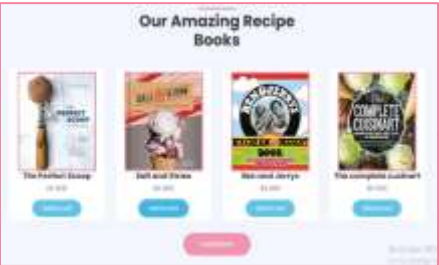

A login page titled "Log in" with the instruction "Use a local account to log in." It includes fields for "Email" and "Password", a "Log in" button, and a link to "Register a new user".

Login Page

A section titled "Most Asked FAQ's" with a list of frequently asked questions and their answers.

FAQ's

A section titled "Our Amazing Recipe Books" featuring four book covers: "The Perfect Recipe", "The Complete Cookbook", "The Complete Cookbook", and "The Complete Cookbook". Each book has an "Add to Cart" button.

Books

A checkout form for recipe books, including fields for "Name", "Email", "Phone", "Address", "City", "State", "Zip", and "Country". It also has a "Submit" button.

Books Checkout

A "Submit Recipe" form with fields for "Name", "Email", "Phone", "Address", "City", "State", "Zip", "Country", "Recipe Name", "Recipe Description", and "Recipe Image". It includes a "Submit" button.

User Recipe Submit

A "Contact Us" form titled "Contact Us For Any Query" with fields for "Name", "Email", "Subject", and "Message". It includes a "Send Message" button.

Contact Us

2) User Registration and Login:

2.1 Develop a registration page allowing users to register by making payment(monthly or yearly).

Register

Create a new account

Name

name@example.com

Email

name@example.com

Password

password

Confirm Password

password

Credit/Debit Card

enter your credit/debit card number

password

Log in

[Register as a new user](#)

3) Booking Order System:

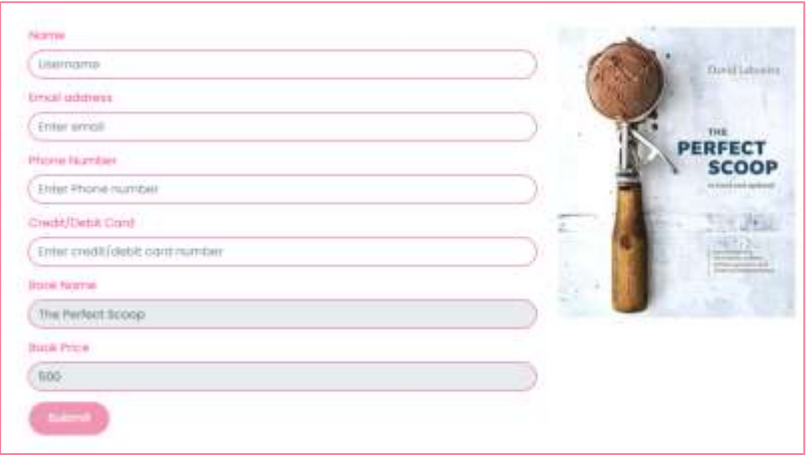

- 3.1 Design an online order page for books with images, descriptions, and prices.
- 3.2 Collect user details like name, email, contact, address, and payment information securely.
- 3.3 Display a confirmation message after a successful transaction.

Books Page

Book Detail Page

Book Checkout Page For registered user

Book Checkout Page For unregistered user

Toaster Popup on placing order successfully

4) Feedback Form:

- 4.1 Create a feedback form for both registered and unregistered users.
- 4.2 Ensure the form collects valuable feedback and suggestions.
- 4.3 Implement a system to store and view feedback data.

Rose	Excellent	★ ★ ★ ★ ★

After user submits feedback the feedback stores in database and all users feedbacks are displayed to admin in admin panel

5) About Us:

5.1 Develop an 'About Us' page describing the ice-cream parlor and the owner.

About Us page

On clicking this button
About us modal pops up

On clicking this button Our
features modal pops up

6) Contact Us:

6.1 Design a 'Contact Us' page displaying relevant contact details.

Contact Us For Any Query

Enter your name

Contact Us form with relevant contact details been displayed

7) Registered User Features:

7.1 Enable additional features for registered users, such as accessing famous flavors.

7.2 Implement links and functionalities specifically for registered users.

8) Flavor Details for Registered Users:

8.1 Enable access to details for flavors mentioned (ingredients, procedure) for registered users.

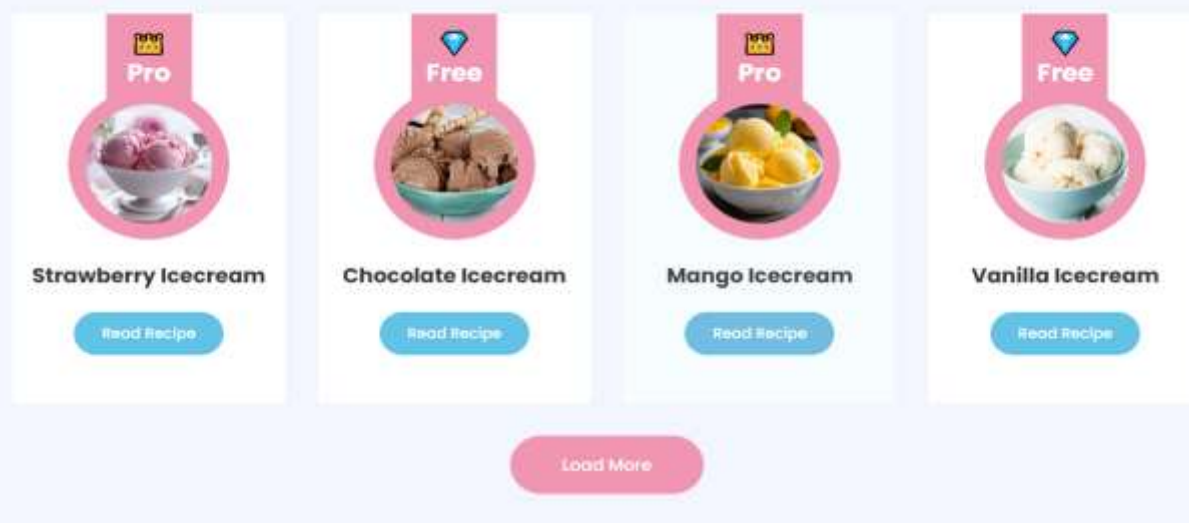

For Registered Users:

- ❖ Registered Users have access to all of the user functionalities including:
 - i. Accessing pro recipes
 - ii. Submitting Recipes

For Unregistered Users:

- ❖ Unregistered Users have access to all of the user functionalities excluding:
 - i. Accessing pro recipes
 - ii. Submitting Recipes

Our Delicious Recipes

For Registered Users
He could access both

For Registered Users
He have access to submit his recipe

For Unregistered Users
He could only free one

If he tries to access pro recipe he would be redirected to a registration modal popup

8.2 Allow the admin to update and add new flavors and their details.

On Admin Panel

On Website

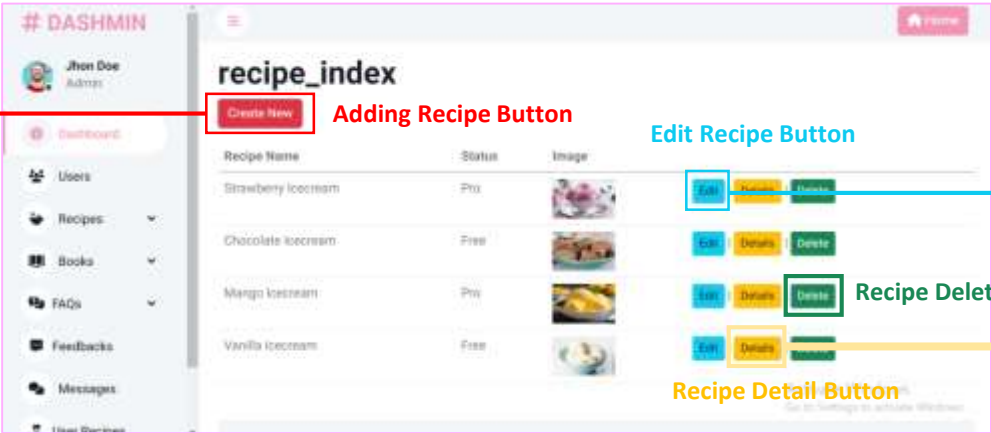

Add Recipe Page

Edit Recipe Page

Installation Guide

In Order to Install the Project follow these following steps:

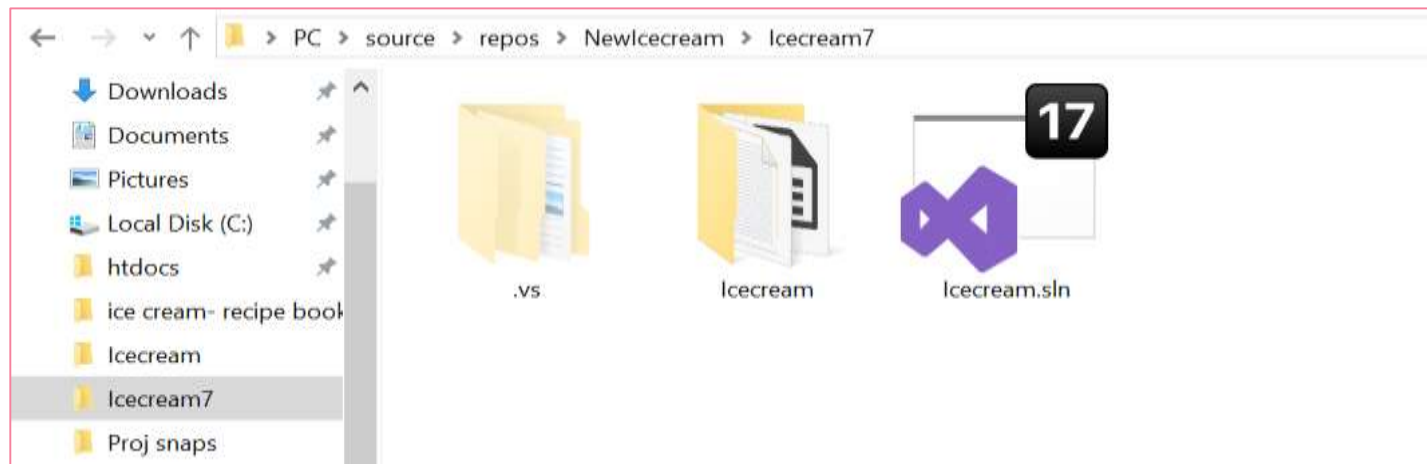

Step1: First of all we need two software's visual studio and sql server management studio

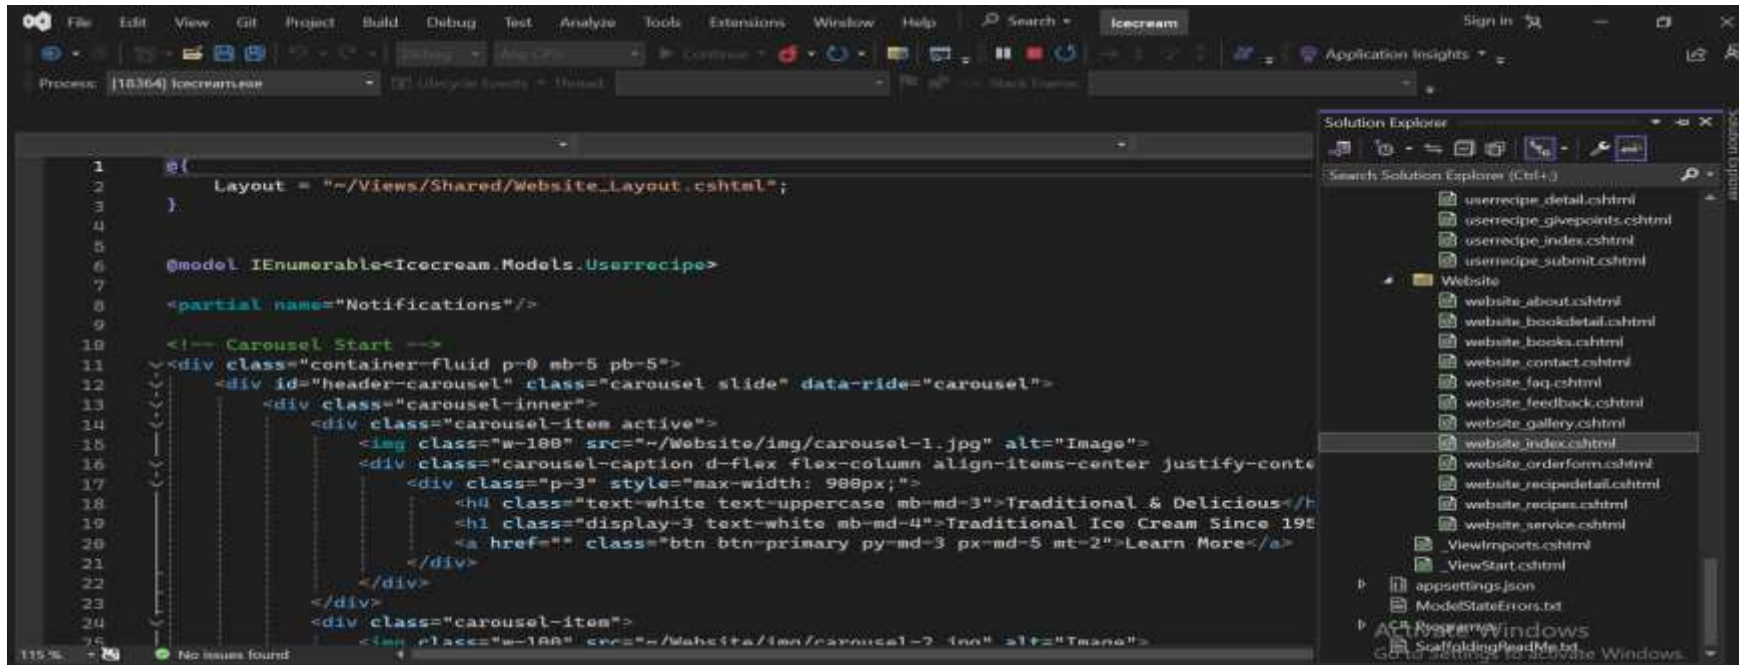

Step2: Download the project from this link below

<https://www.mediafire.com/file/wok3m5lu2c6arwh/Icecream.rar/file>

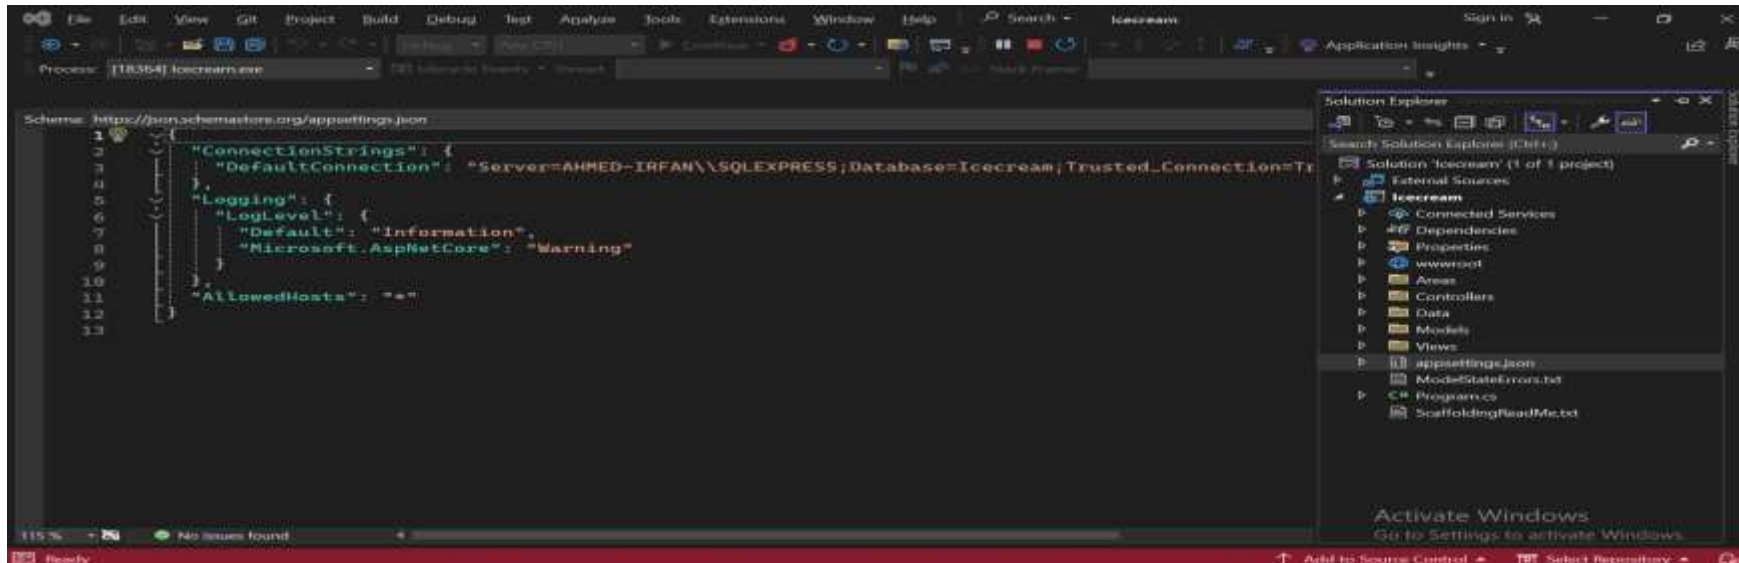

Step3: Then open file and select Icecream.sln

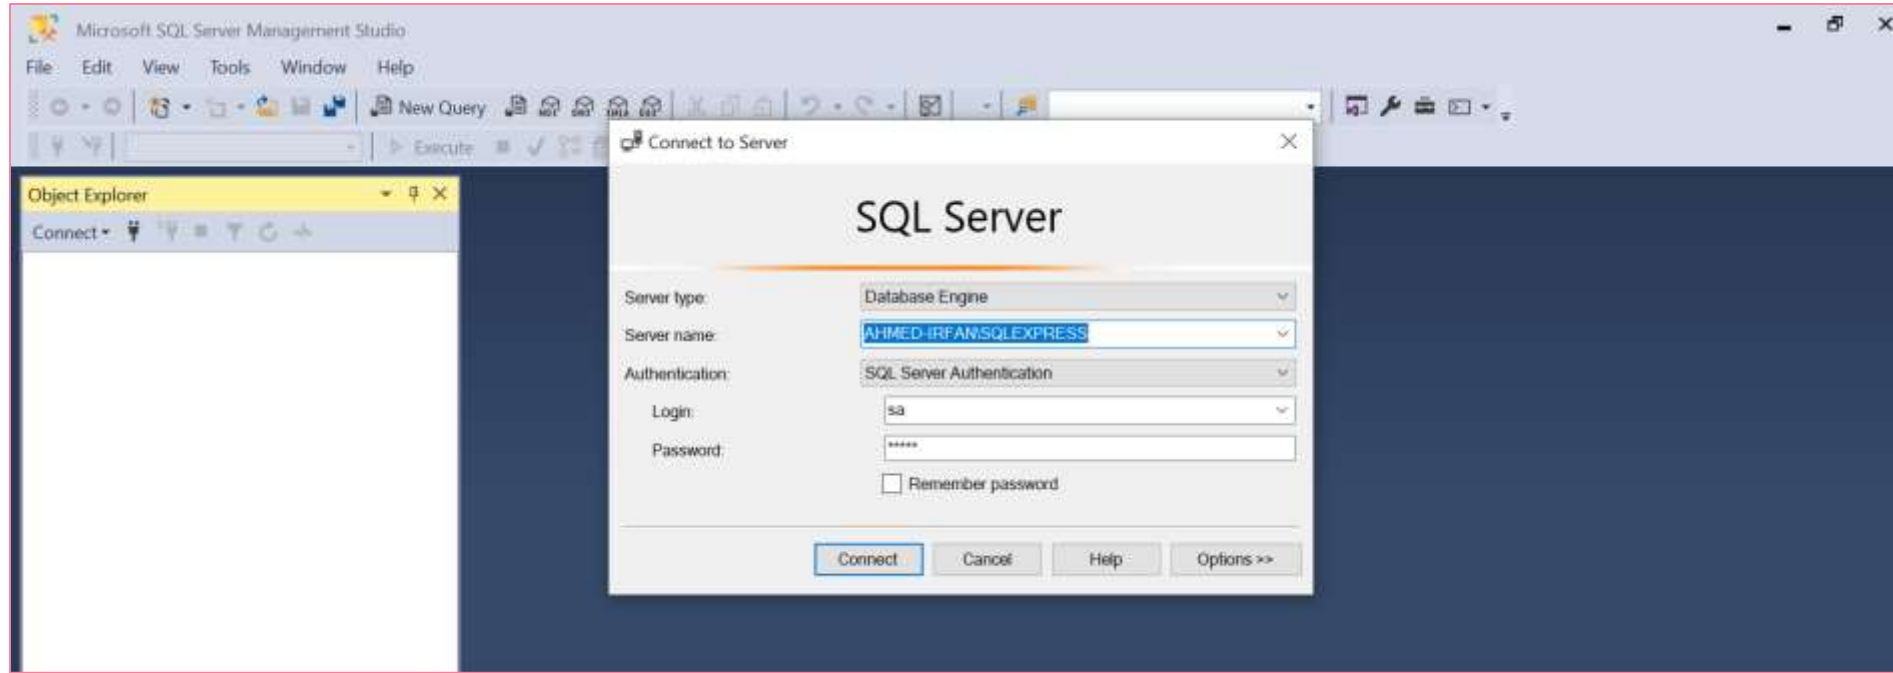

Step4: After clicking on Icecream.sln project will open up in visual studio

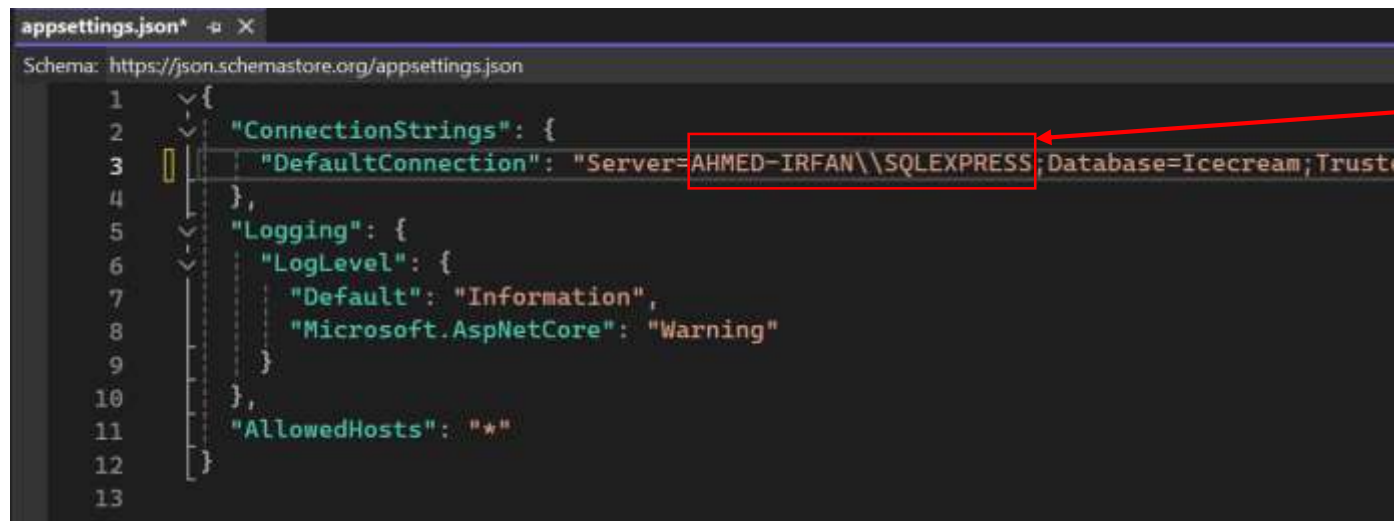

Step5: Open appsettings.json

Step6: Open Sql server management studio and copy the server name

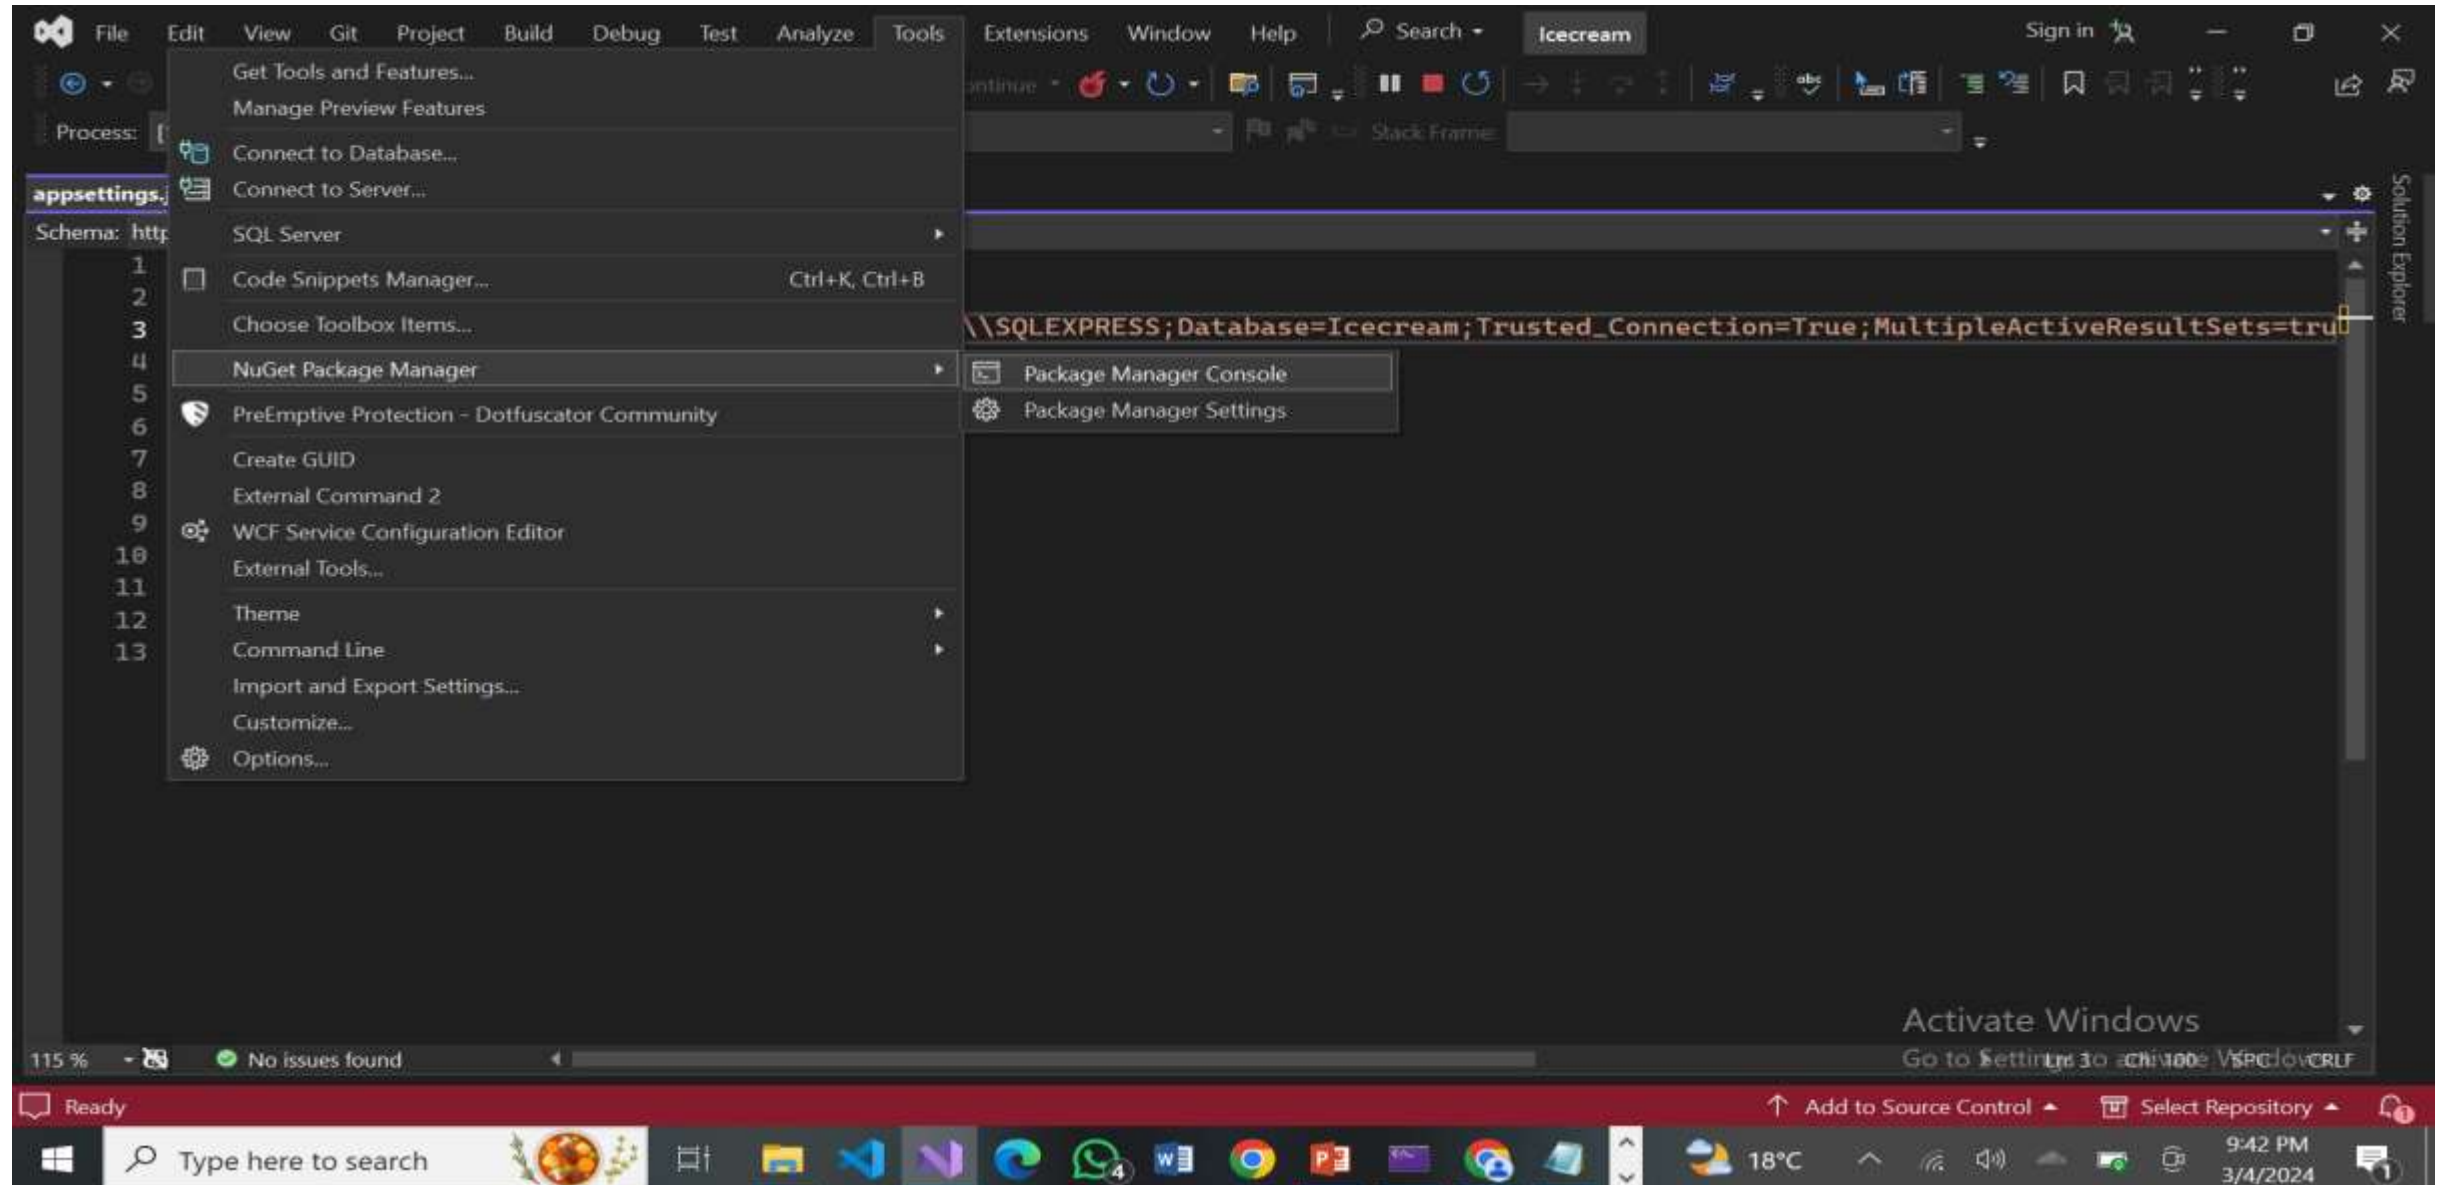

Step7: Now paste the server name in appsetting.json

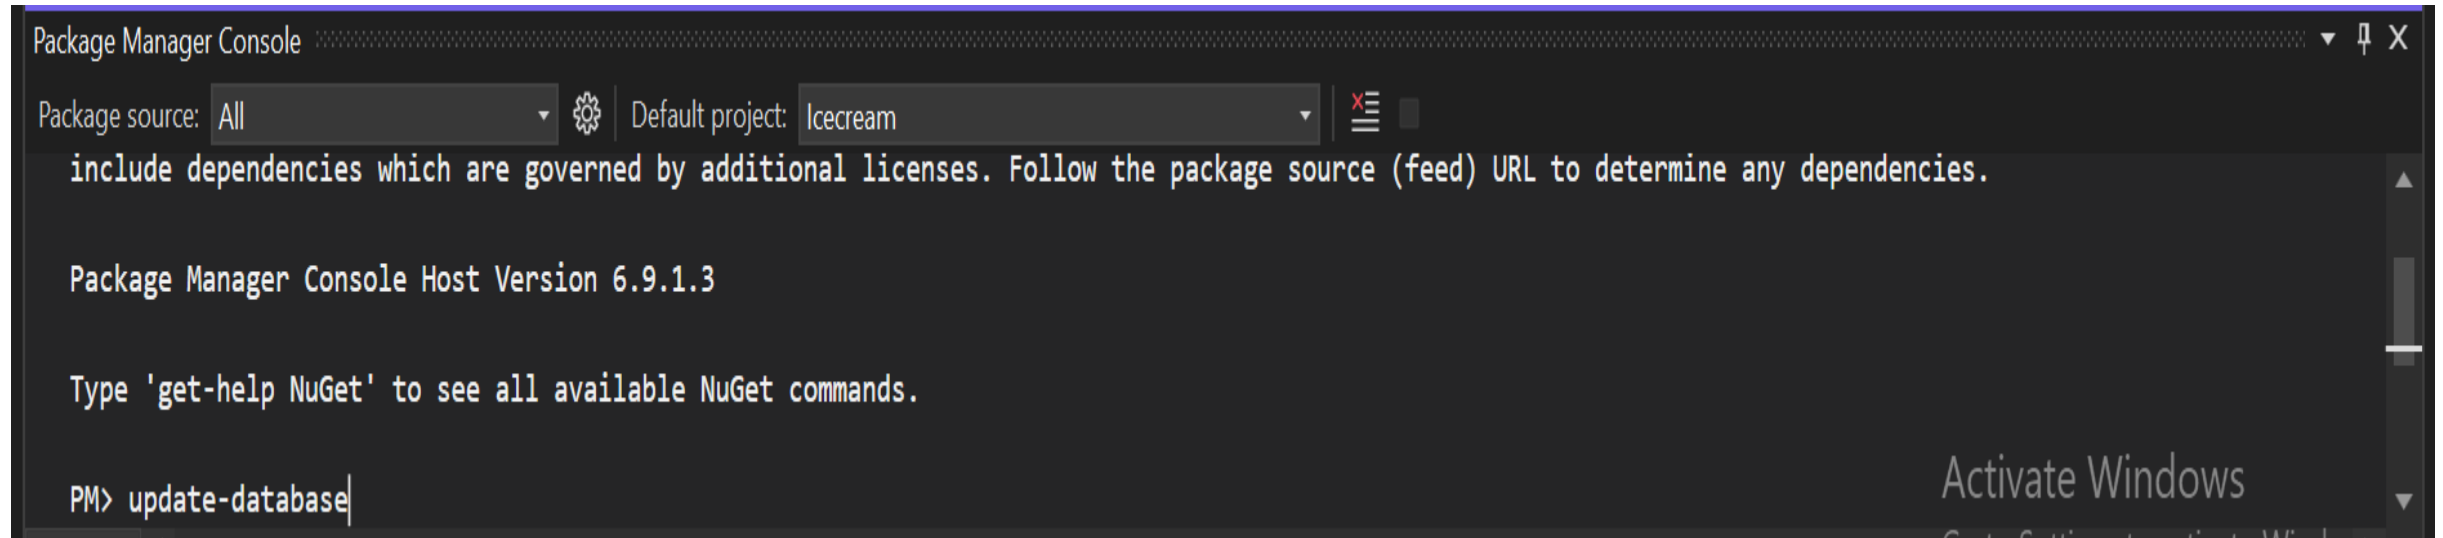

over here replace your
server name

Step8: Now on visual studio and from top select Tools/Nuget Package Manager/Package Manager Console

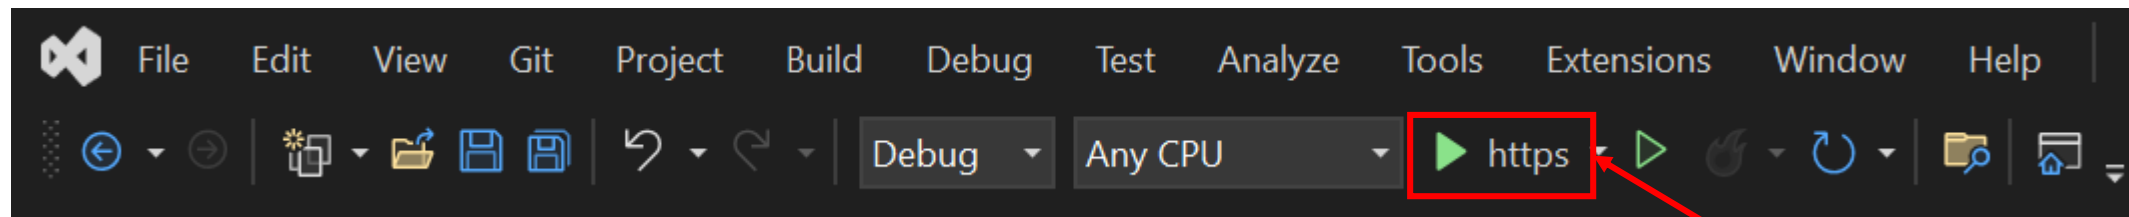

Step9: After Console opens up write update-database and hit enter

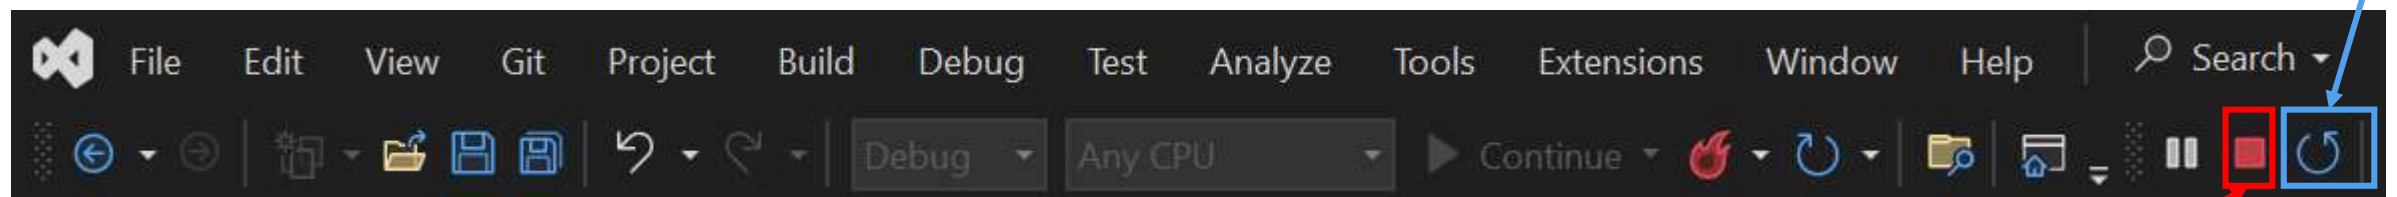

```
Package Manager Console
Package source: All | Default project: Icecream
include dependencies which are governed by additional licenses. Follow the package source (feed) URL to determine any dependencies.
